Politics is basically a descriptive and factual science as it studies functioning of government at the time of peace and war. Ethics studies the human conduct with reference to a particular norm. Thus it is a normative science. It studies what ought to be, not what actually occurs or what is the case.

Relationship Between Politics and Ethics - Research Paper

Ethics, in politics, can be used as a "code of conduct" – a set of rules or norms for diplomatic behaviour. When considering ethics as a constraint on states and political institutions, it can be argued to be powerful and influential. However, the question of whether politics can be improved by ethics is debatable.

Politics and Ethics - 2332 Words | Bartleby

This chapter first examines Max Weber's views on the relationship between ethics and politics. Weber maintained that there is an ineradicable conflict between the ultimate value spheres, each of which has its own inherent logic; consequently, he rejected the idea that politics could build on ethical foundations. Moreover, he pointed to an essential conflict within the sphere of politics ...
